

## How To Make a New Year Paper Scroll

### Materials

- roll type paper, such as butcher paper, for each child (this will be the scroll)
- 2 long empty paper towel rolls for each student
- yarn or ribbon
- glue
- stapler
- Chinese New Year or Spring Festival background information, see below
- new year greeting templates for scrolls
- crayons, markers

### Procedure

Show the students an example of a scroll and explain that scrolls are used as decorations during the Chinese New Year celebration and as an art form. Explain to the students how to decorate, color and paste the new year greeting templates on the scroll paper. Complete the scroll by gluing and or stapling the ends of the scroll paper to the paper towel rolls. Hang the scrolls up with yarn to display.
